REPRINTS

Olms Online presents works reprinted by the Georg Olms Verlag with additional information. These are reprints with new introductions, afterwords, notes or indexes added by the editors. This "added value" distinguishes the chosen titles from other digital collections on the World Wide Web. Bibliographical data are also searchable through hidden metadata.

Currently some 400 volumes, with a focus on German language and literature and on philosophy, can be viewed here. You will find on these pages, for example, the German and Latin works from the Complete Works of Christian Wolff, the Works of the Brothers Grimm and Bernhard Suphan's Herder edition with an introduction to the online edition by Professor Gerhard Sauder.

Titles from our collections on Christian Thomasius and Hermann Cohen, as well as early works of women's literature, dictionaries of the 15th to 19th centuries and collections of proverbs offer a digital insight into the Olms Verlag's humanities programme.

German-Language Newspaper Access in North America

GERMAN-NORTH AMERICAN RESOURCES PARTNERSHIP

This index to German-language newspaper access in North America is a project of the Collection Development Working Group of GNARP (German-North American Resources Partnership).

The scope includes German-language newspapers regardless of geographic location. The emphasis is on historical newspaper holdings; lists of current online editions can be found in the Internet Public Library and elsewhere. General news is the main focus; specialized, narrow, trade or niche newspapers are not well represented. As a complement you can also consult the German-language listings of ICON (International Coalition on Newspapers) and for eNewspapers the entries of DigiZeitungen.

Organization: Newspaper titles -- whether local, regional or national in scope -- are listed alphabetically by city of publication. City names are given as recognizable in common English usage (e.g., *Vienna*); vernacular equivalents are given where the spelling differs (e.g., *Wien*). Each holding institution is listed alphabetically by name, along with years of holdings and an indication whether interlibrary loan is available. Formats are indicated by icons as follows:

paper
microform
open-access digital

Newspaper Holdings by City of Publication

A - B - C - D - E - F - G - H - I - J - K - L - M

N - O - P - Q - R - S - T - U - V - W - X - Y - Z

North American institutions are encouraged to add titles and holdings relevant to German newspapers in their permanent possession.

- Please contact wiki administrator "wess @ byu.edu" for log-in procedure. -

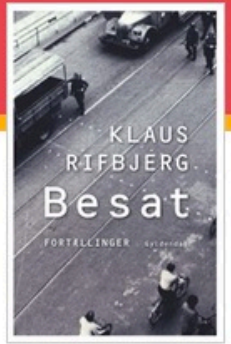
Besat - Ny bog af Klaus Rifbjerg

Fortællinger, der foregår under eller har tråde til besættelsestiden. Udkommer på 75-års dagen for besættelsen af Danmark. Og markerer samtidig, at en stor stemme netop er forstummet.



Besat
Klaus Rifbjerg

'Besat' kan være både et adjektiv og den korte tillægsform af verbet besætte. Når man bruger adjektivet, taler man om en person, der er afsindig, bindegal, vanvittig...

Sophie

A Digital Library of Works by German-Speaking Women

"Als eine Frau lesen lernte,
trat die Frauenfrage in die Welt."
Marie von Ebner-Eschenbach

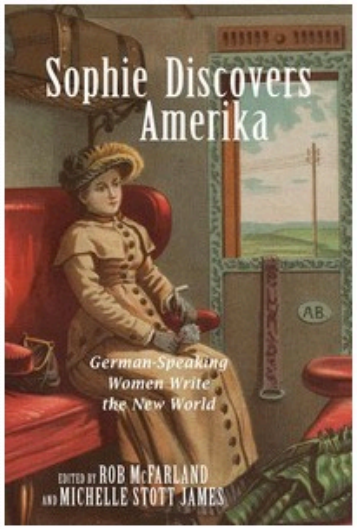
The Sophie Project

Digital Library of Works by German-Speaking Women

What's New?

Sophie Disc

The Sophie Projec[illegible]west publication, "Sophie Discovers Amerika," edited by Dr. Rob McFarland and Dr. Michelle Stott James.



In a 1798 novel by Sophie von La Roche, a European woman swims across a cold North American lake seeking help from the local indigenous tribe to deliver a baby. In a 2008 San Francisco travel guide, Milena Moser, the self-proclaimed "Patron Saint of Desperate Swiss Housewives," ponders the guilty pleasures of a media-saturated world. Wildly disparate, these two texts reveal the historical arc of a much larger literary constellation: the literature of German-speaking women who interact with the New World.

In this volume, cultural historians from around the world investigate this unique literary bridge between two hemispheres, focusing on New-World texts written by female authors from Germany, Austria, or Switzerland. Encompassing a broad range of genres including novels, films, travel literature, poetry, erotica, and even photography, the essays include women's experiences across both American continents.

This volume can be purchased from **Amazon** or directly from the publisher **Camden House.**

You can read many of the original texts in **Sophie Discovers Amerika: The Digital Companion**, provided by Alec Down.
