

**Library of Congress Arabic Pamphlet Collection, Part 3**  
**Reel Contents**

This collection of over 1,300 items was microfilmed on 55 reels by MEMP in 2019.

Many of the materials are from Egypt, Sudan and West Bank/Gaza, with additional materials from other countries. They were published in late 1990s and 2000s, up until 2015. They deal with a wide variety of subjects such as politics, culture, laws, women, public health, environment, economics, and human rights. They also contain materials regarding different political parties, movements, and social and economic events. Many of the materials are in Arabic, but there are quite a number of items in English and French.

The material was collected by the Library of Congress Field Office in Cairo, Egypt under the direction of William Kopycki. It has been organized by Country, and further arranged according the issuing body/organization. There are over 230 organizations. Collection of these materials may reflect contemporary political movements such as Palestinian Independent Commission for Citizens' Rights, Palestinian Legislative Elections 2006, Sudanese Women Parliamentarian's Caucus and more.

Each item included in the collection is listed in this document, under the title it can be found in the collection. Below is a listing of the countries and the page on which each starts on this document.
