

**COLLECTIONS TO BE ACQUIRED THROUGH THE CRL  
SHARED PURCHASE PROGRAM  
2016**

With the support of twelve member libraries, CRL will acquire four microform sets through its 2016 Shared Purchase Program. The total list cost of these acquisitions, which benefit all CRL members, is \$45,668.

The [Shared Purchase Program](#), along with the [Purchase Proposal Program](#), are CRL cooperative collection development efforts. Through these programs, CRL members nominate, prioritize, and vote for CRL to acquire highly important but expensive materials. Shared Purchase Program materials are acquired with CRL seed money and funds contributed by interested CRL libraries.

CRL thanks the following libraries for contributing to this year's Shared Purchase Program:

- Arkansas State University
- University of British Columbia
- University of California, Berkeley (nominating library)
- Carleton College
- Kenyon College
- University of Maryland, College Park (nominating library)
- University of Michigan
- University of Pennsylvania (nominating library)
- Princeton University (nominating library)
- Stanford University
- University of Washington
- Yale University

Generous contributions from these libraries made possible the acquisition of the collections below.

#### ***Homin Ukrainy (Echo of Ukraine), (1948-1983, 1986-2014)***

This Ukrainian diaspora newspaper from Canada started in the post WWII years up to the present, covering the fall of the Soviet Union, the post-Soviet period and the current crisis. Canada has one of the largest-- if not the largest-- Ukrainian diaspora population in the world, and in the period just after WWII people were seeking their permanent places of residence.

#### ***National Thrift News (1977-1995)***

*National Thrift News / National Mortgage News* (name changed in 1989) is available via LexisNexis from 1985 forward. However, the electronic resource does not provide the layout, photos, advertisements, staff editorial and production information that are highly valued by historians and others conducting content analysis of this important publication. This proposal covers the years 1977-1995, the prime period of the *National Thrift News* journalism, which also tracks the arc of the savings and loan crisis and its cleanup.

#### ***Supplements to the Bibliothek der deutschen Literatur***

The two supplements to the original *Bibliothek der deutschen Literatur* microfiche set are held by fewer than five CRL member libraries willing to loan the fiche. The selection of titles is based on works listed in *Der Taschengoedek*, an authoritative source of German first editions, compiled by Leopold Hirschberg, and the bibliography "*Erstausgaben deutscher Dichtung*" by Gero von Wilpert and Adolf Gühring. Description from the publisher: "350 years of German literature are now available on microfiche thanks to the *Bibliothek der Deutschen Literatur* (1995) and its First Supplement (1998). Containing 1,480 works by 239 authors on 2,131 microfiches, the *Second Supplement of the Bibliothek der Deutschen Literatur* focuses predominantly on the literature of the latter half of the 19th century."
