

## Select Serials Held by the South Asia Microform Project (SAMP)

Cataloged as of 5/1/06

The South Asia Microform Project (SAMP) is a cooperative program that seeks to acquire and maintain a readily accessible collection of unique materials in microform related to the study of South Asia. Materials are collected both through the filming efforts of the project and through the purchase of positive copies of materials filmed by other groups, institutions and companies.

The following publication lists selective serials held by SAMP. Material has been arranged by country of publication and alphabetically by main entry.

Records have been abridged for reasons of space. Additional holdings of titles may be held by the Center for Research Libraries in print or microform. Users are encouraged to consult the CRL Catalog (<http://www.crl.edu/catalog/index.htm>) for the most current and complete holdings.
