Railroad Company Documents Pre-1930's

RAILROAD COLLECTION U.S., FOREIGN

COLLECTION DESCRIPTION

LOCATION

T5 R4/6 CC-V

The original holdings of this Railroad Collection were deposited at CRL by the University of Wisconsin. Material from the University of Wisconsin collection, as a general rule, predates 1930. The collection has been retained as a unit, although some subsequent materials have been added over time. The types of materials held are cited below. Attached are title holdings lists citing each company for which material is held. If a specific company is not cited on the list, no holdings for that company exist at CRL. If a specific type of material is not cited below, no holdings for that type of material exist within this collection; check the card catalogue. Some materials from the original University of Wisconsin deposit have been removed from this collection. All published railroad guides have been removed to the catalogued collection; all tariff statements which included more than one company have been discarded (with the approval of the University of Wisconsin); all ephemera such as clipping files have been returned to the University of Wisconsin.

If additions are made to the collection either of titles which are not cited upon the title lists, or of types of materials which are also not cited upon this guide, please notify the Department Head so that proper additions can be made.

Shelf tags, produced from the attached title lists, are present on the shelves for each entry to assist in finding materials.

In the alphabetical progression employed for this collection the "&" sign, if used, is ignored. Check the shelves and the attached list employing "and" and not employing "and" if present in a title.

COLLECTION DESCRIPTION

1. U.S. COMPANIES

Filed alphabetically by the name of the company,. A shelf tag stating the complete name of the company is attached at the beginning of the holdings for each company. Changes in title are observed with cross references attached as necessary. Such cross references also appear on the attached title lists.

2. FOREIGN COMPANIES

Filed alphabetically by: (1) name of the country (2) name of the company. A shelf tag stating the complete name of the company is attached at the beginning of the holdings for each company. Changes in title are observed with cross references attached as necessary. Such cross references also appear on the title lists attached.

RAILROAD COLLECTION - U.S., FOREIGN, COLLECTION DESCRIPTION (continued)

Within each company appear the following types of material (if held), in the following sequence:

A. Annual Reports:

The annual (or frequency as employed) financial statements of the company, usually issued as reports to stockholders.
