Shared Print Discovery Pilot

Linda F Wobbe / SELC Shared Print Committee Staff Liaison

Outline

Background: Infrastructure for Monographic Shared Print

- EAST Summit Open Data Working Group
 - Use Cases (2018)
- Partnership Infrastructure Working Group
 - Investigating and Discovery/Access/Resource Sharing
 - Infrastructure Wish List (2020-2022)
- CCH
 - Shared Print in Collections Lifecycle (2021-2022)
 - Summit Expressions of Action and Encouraging Experimentation

Monographic Shared Print Infrastructure

Current Status

- Registration of Commitments - YES
- Visibility of Commitments - Sort of
- Resource Sharing - Not Yet
- Discovery - Various Experiments
- Many other elements to be built

Deliverables

and Process

UNION CATALOG	DISCOVERY	RESOURCE SHARING
Auto-Graphics Creates SHARP site using SHAREit	Exportable File will link to SHARP	SHARP provides native resource sharing features
Initial decisions re: 583 information, matching, linking	SHARP records will link to Library catalogs for real- time availability check	Resource Sharing performed in SHARP will provide Statistics
Libraries FTP MARC records and 583 statements	Libraries can upload file to Catalog or Discovery Systems	Review

Statement of Work

Auto-Graphics, Inc. will build a database between 2 and 2.5 million records with related item records which will include a 583 "Action Note" field within each record. SHAREit will serve as the underlying **record repository and record management system as well as a resource sharing management system** for the up to **40 institutions** wishing to join the pilot project. Auto-Graphics will supply technical and general software support as well as bibliographic management services (staff and resources) to manage the central Shared Print collection. This will be a pilot for 12 months and can be lengthened through a mutual agreement. While a pilot the system has unlimited expansion to accommodate more institutions joining..

For the purposes of building the Shared Print collection the **contents of the 583 should be moved to an item/holding record attached to the base MARC record to preserve the "action notes" or retention policies for each institution participant.**

Where To Find It

Institution	Check Shelf Status	Retention	Dates	Statement	Programs	Call Number
Occidental College		Committed to retain	20170731-20320731	retain for SCELC.	SCELC SharedPrint	P112.S65 2002

Project Milestones

- **Identify participants.**
- **Participants complete forms re: ILS system, record format and contacts**
- **Participants complete record processing forms**
- **A-G: provide FTP site for MARC record extracts from SCEL C members.**
- **A-G: will create SHAREit system and add participant information**
- **Participating members isolate and extract in MARC bibliographic records that include 583 retention commitment statements**
- A-G: will review with planning group and participants each participant's extract for all data and will build a match routine in consultation with SCEL C central staff.
- A-G will match based on the criteria and build the physical union database, indexed, and provide a URL to SCEL C for data review.
- A-G: Discovery layer will provide branding and library specific information.
- A-G: System will provide availability links for participating libraries.
- A-G: Record download and export will be added.
- A-G: SHAREit ILL sub system will be linked to 856 record retention allowing member libraries to use ILL system for item borrowing and lending.
- A-G: All usage statistics will be modified to allow for 856 record retention tracking for member libraries and SCEL C as a whole.
- A-G/SCEL C: Training for Discovery, ILL subsystem, FTP record upload, record download, UX admin, user administration, PAC administration and central admin training.

CONCLUSIONS

Thank you

AM **Alan Mask**
Customer Service Manager at Auto-Graphics

DH **Debbie Hensler**
SHAREit Product Manager at Auto-Graphics

GJ **Glenn Johnson-Grau**
SPC Consultant (SCELC) at Loyola Marymount University

JS **James Sanchez**
Customer Support Technical Lead at Auto-Graphics

JDL **John de La Fontaine - SCELC**
RSC Consultant (SCELC) at Occidental College

LG **Leanna Goodwater**
Vice Chair (SCELC) at Shared Print Committee

MM **Mark McCallon**
Shared Print Committee Chair (SCELC) at Abilene Christian University

MG **Maureen Graham**
SHAREit Product Manager at Auto-Graphics

MK **Michael Kares**
RSC Chair (SCELC) at William Jessup University

PM **Paul Morrell**
Project Manager at Auto-Graphics

RC **Ramiro Castillo**
Database Manager at Auto-Graphics

SU **Sergio Uribe**
Customer Support Specialist at Auto-Graphics
