Project Description

Category Film purchase
Main Entry (e.g., author, title) **India Land Settlement Reports**
Publisher/Source British Library. India Office

Copyright Owner

Description (subject, years covered, format, physical description, etc.) This proposal covers Land Settlement Reports missing from SAMP's collection that have already been filmed by the British Library.

These were determined through a comparison of SAMP's current collection with items listed in various bibliographies and the "Official Publications of India" catalogue on the DSAL Web site. This list of missing reports was then researched by the British Library and marked for those as having film available.

The attached list does not represent all missing land settlement reports; only those that have existing film currently available for purchase.

Reasons for Consideration (Importance of material, history of collection, physical condition, etc.) SAMP holds a near complete collection of available Indian Land Survey and Settlement Reports, filmed at the British Library's India Office Library. This collection reflects an important source of material for the study of Indian rural society, particularly economic and social changes during the period of British rule in India.
