Committed Titles vs. Overall Holdings

Information about holdings within the Ivy Plus Libraries, HathiTrust Shared Print Phase 1 libraries, and all HathiTrust libraries was provided as part of candidate commitment file from HathiTrust. For the titles committed by IPL to HT SP P1, this page shows how commonly held IPL committed titles are within each of those three groups. This is regardless of whether those libraries are participating and/or chose to commit that title. That is, this represents the pool of copies available for IPL committed titles.

Unique Titles by Country/Region of Publication

Countries are based on data provided by libraries, usually from 008/15-17 and translated to human-readable via locally-created mapping table.
Regions are just groups of countries negotiated within Ivy Plus for this project.

Totals here are reduced through the exclusion of records that had no value, an invalid value, or the various values that correspond to recording that a determination of no value was recorded during description.

China	92,232
Japan	59,427
Korea (South)	10,769
Hong Kong	3,469
Korea (North)	560
Mongolia	260
Macao	78

HOLDINGS=\$

1. *How/will we revert over-retentions?*
2. *Are libraries be willing to perpetually retain materials with expired local interest?*
3. *What is the role of workflow-based retention?*

THANKS!
