SHARED PRINT REGISTRATION
Registration Benefits

• A streamlined registration process that:
  – Allows batch creation of Shared Print monograph retention commitments
  – Uses non-MARC data to create LHRs via a 583 Action Note
  –Eliminates the need for an OCLC second symbol for “shared print in place” monograph collections
  – Sets the Shared Print holding type flag in the WorldCat bib record which enables visibility into Discovery/Access
  – Provides ability to output MARC records in multiple formats, including non-interleaved LHRs, for input into ILS
Registration Process – Upload File

• Excel file consisting of:
  – OCLC Number
  – Local System Record Number
  – Barcode (WorldShare Management Services libraries only)

• Uploaded through MyFiles
