Interlibrary Monograph Study

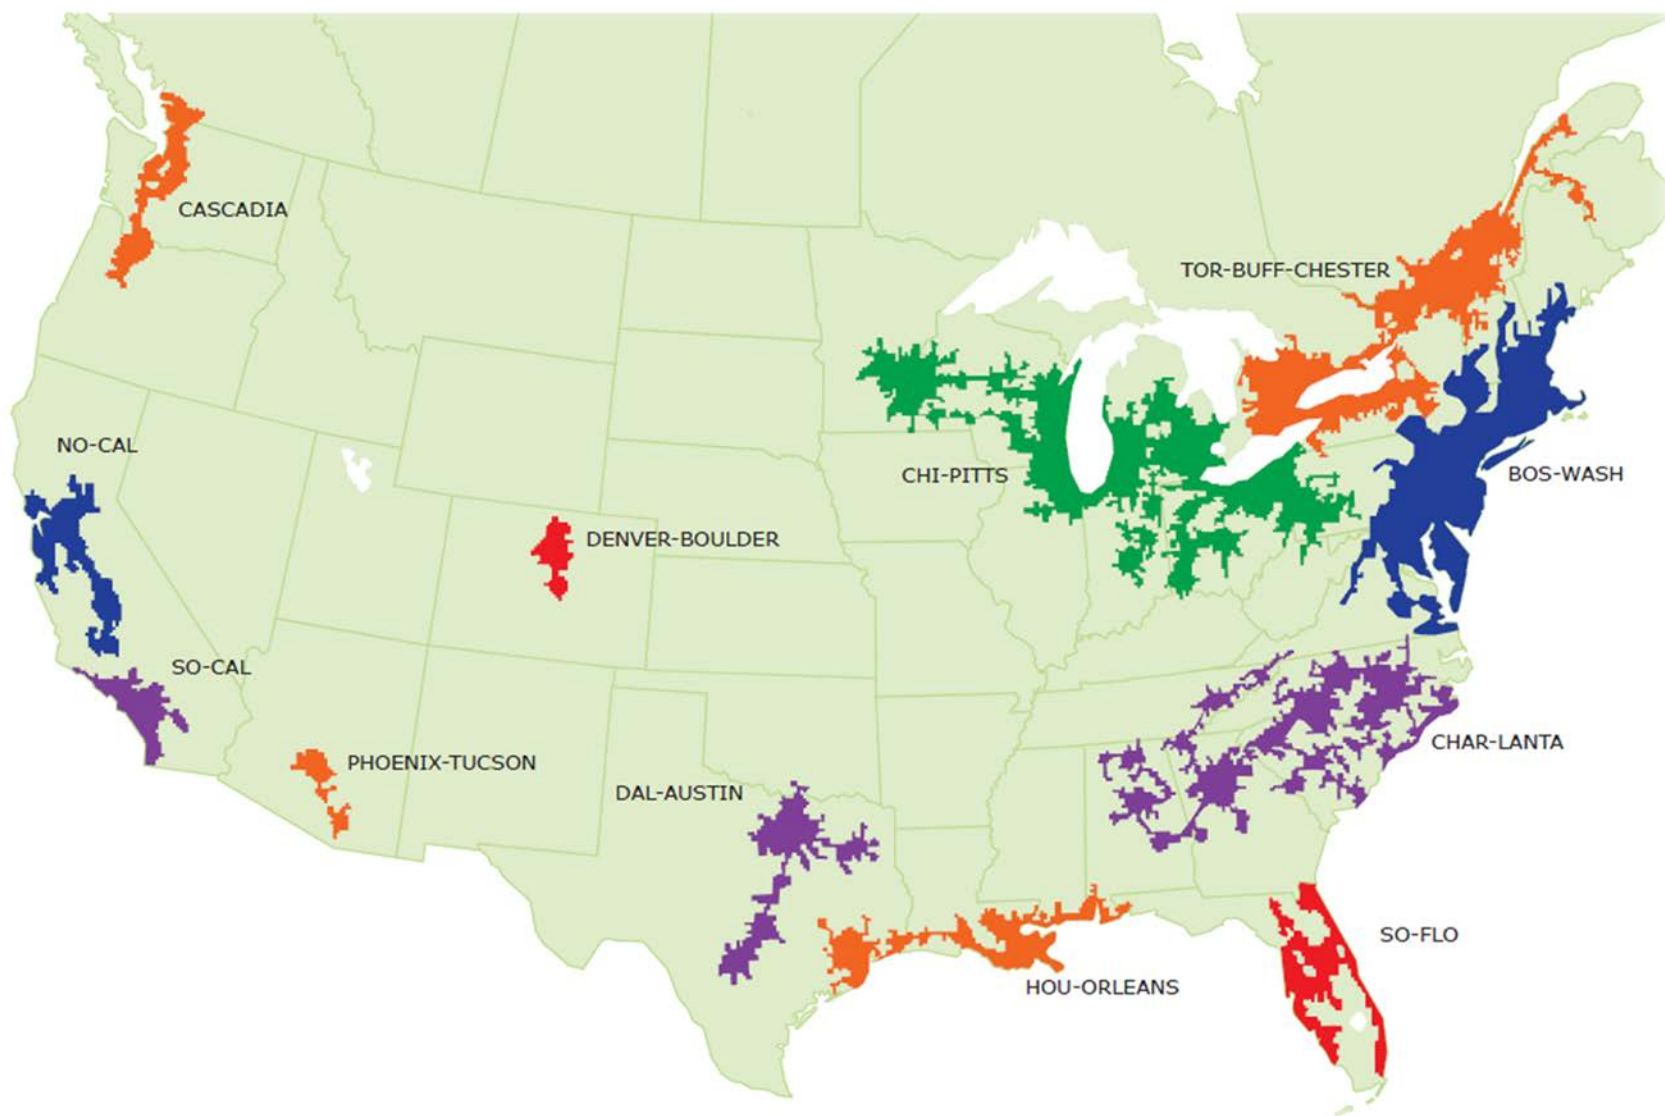

Kim Armstrong, CIC

Right-scaling Stewardship:

A multi-dimensional perspective on OSU & CIC print collections

- Print Management at "Mega-scale" (2012)
- CHI-PITTS Mega-region
- Expanded region to include all CIC except Rutgers & Maryland
- Report to be published in February
- Preliminary results presented to all CIC in webinar last week
- CIC has shared print program for journals, have not expanded to monographs

Measures

- Distinctive print book manifestations
- Overlap
- Rare vs. Core
 - Held by 3 or fewer libraries
 - Held by more than 10 libraries
 - Titles
 - Language
 - Age
 - Subjects
- Takeaways
 - Rare collection 25 times larger than collective core; likely to be non-english, humanities focused, older than average
 - 75% of CIC collective collection held by 3 or fewer libraries

Deep Subject Analysis

- FAST (Faceted Application of Subject Terminology)
- Examined single libraries subject collection strengths and clusters of CIC libraries
- Compared to both CIC collection and WorldCat
 - EXAMPLES
 - OSU #1 collection of Cartoonists compared to CIC and WorldCat
 - OSU #1 in CIC for Israeli poetry, #4 compared to WorldCat
 - Chicago & Wisconsin strength in South Asia together
 - Also compared subject areas to HathiTrust

The background of the slide is a photograph of a large, ornate building with a red-tiled roof and stone walls, likely a university building. The image is partially obscured by a yellow banner at the top and a green vertical bar on the right side.

RESOURCE SHARING

- Analyzed CIC borrows/loans placed via WCRS 2006-2013
- 1,215,831 requests placed
- 29 CIC library symbols
- 57% of all CIC requests filled by non-CIC libraries
- Potentially 68% of that demand could have been met within CIC
- Expect the Uborrow service to improve discoverability and supply among CIC members
