

The University of California Shared Print program facilitates the effective development and management of physical collections among the libraries of the University of California. Through coordinated action, the UC Libraries optimize the management of information resources for students and faculty. With a longstanding tradition of collaboration among the libraries and with extramural partners, the UC shared print collections include monographs, journals, microforms, and art slides that are jointly collected and collectively managed; most are held as shared collections in storage while others are held in place, in full-service campus libraries.

Program website: <http://www.cdlib.org/services/collections/sharedprint/>

Shared print collections, strategies and extramural partnership are developed and managed by Shared Print Strategy and Operation Teams. For more information, contact Ivy Anderson, Interim UC Libraries Shared Print Manager: [ivy.anderson@ucop.edu](mailto:ivy.anderson@ucop.edu).

### **California Digital Library seeks the next Manager of Shared Print Programs**

#### ***Are you passionate about building the collective collection for the 21<sup>st</sup> century?***

The Manager of Shared Print Programs is responsible for two major shared print efforts that have their home at CDL: collaborative leadership of shared print initiatives across the ten campus libraries of the University of California (UC) system, and program management for the Western Regional Storage Trust (WEST), a large scale collaboration of 60+ libraries to build a distributed print journal archive across the western United States. The successful candidate will also cultivate new partnerships and represent CDL/UC and WEST in a variety of extramural initiatives, including the Rosemont Shared Print Alliance, a cross-program initiative that seeks to foster even greater scale in print journal archiving, and the HathiTrust Shared Print Program. Please see the full position description [here](#) for application details.

### **Shared Print Monograph Summit**

Ivy Anderson, as Interim Shared Print Manager for CDL, was invited and participated in the Shared Print Monograph Summit hosted by EAST in early April. As a result of discussions held during the summit, six working groups were formed to address key priorities of monograph shared print. Ivy joined the Organizational Structure Working Group and CDL's Shared Print Analyst, Alison Wohlers, is participating in the Standards Working Group.

### **Update on the Annual Journal Archiving Campaigns to the RLFs (JACS)**

JACS are a coordinated effort to rapidly deposit all holdings for a defined title list (totaling approximately 500 journal families and up to 30,000 volumes per year) into the UC Regional Library Facilities, where a single copy is consolidated for long-term retention and access. The campaigns are voluntary. Seven to eight UC campuses participate each year. Titles are *in addition* to other WEST title lists.

Participating campuses ship all holdings to the facilities without reviewing volumes or issues. RLF staff validate holdings at the volume level and deaccession duplicates.

This approach has proven very popular among participating campuses as it greatly alleviates staff time (by about 30%) at contributing libraries in making volume-level decisions. All holdings are shipped to the

RLFs where staff members remove duplicates, fill gaps, and validate holdings. Gaps are filled very rapidly, and campus shelf space is readily reclaimed.

The third Journal Archiving Campaign (JACS 3) will wrap up with the end of June. Based on the most recently available statistics, the Regional Library Facilities have processed over 12,000 volumes for JACS 3, which includes both volumes consolidated into the archive and de-duplicated volumes. Archived titles for JACS 3 will be disclosed later this summer through PAPER and OCLC WorldCat.

JACS 4 title selections are currently underway, for the first time supported by a UC-specific instance of the AGUA tool. UC campuses now also have access to a complete archived titles report for UC Shared Print.

### **UC Libraries Participate in the HathiTrust Shared Print Monographs Program**

Five (5) University of California libraries and the two UC Regional Library Facilities participated in the Phase 1 HathiTrust shared print program. In this first phase, UC Libraries identified 1.7 M monographs for retention in the HathiTrust program. Most are held at the Regional Library Facilities, while approximately 30,000 monographs were identified for in-place retention at each of three participating campuses.

Consistent with all other extramural partnership in which UC Libraries participate, the UC Libraries will dually contribute its retention commitments to the HathiTrust and UC Shared Print programs. The holdings will be governed by HathiTrust and UC Shared Print policies.
