Session II: Emerging and Potential New Models for Open Access
The changing Reveal Digital model

**Peggy Glahn**
Program Director, Reveal Digital
“There is no more powerful source of freedom and human growth than an open society with an educated populace, which is what open access is working to support.”
“Reveal Digital is a critical partner in the furtherance of this mission. It provides a model by which libraries may make collections available to the public effectively and efficiently at an investment level that aligns with the non-commercial economy in which libraries exist.”

-Reveal Digital Executive Committee – June 2018
A RELATION of an unfortunate Voyage To the KINGDOM OF Bengala.

WE parted from Batavia, with the Vessels named Wisop, Brouwers-haven, and Nieuwen-hove, the 3d. of September, in the year One thousand six hundred sixty one, and set Sail towards Orgueil, in the Kingdom of Bengala. Our Vessel (called Ter Schelling) carry'd about 8 pieces of Cannon, and four score and five men; our freight consisting chiefly of pieces of Silver-Coin.

On the 23d. our Masters Mate, whose name was Hillebrant, going down into the Hold, to fetch thence some Ropes he needed; saw or thought he beheld, through the Port-holes, Persons swimming, pale and spent, and some, that were dead, floating on the Sea. At his coming up he appear'd troubled; and when his heaviness was somewhat alleviated, he told us the cause of it. Whether his vision were real, or a pure effect of his melancholy humour, yet several persons lookt upon it as a bad Omens, and began to expeet the worst. As for his part, from that very moment he still continued sad and pensive, wherein before no man was of a more gay and jolly humour. Such was his seriousness, that he could not endure to hear any idle discourses, nor refrain from exhorting us to fervent prayer, for the averting the dangers threatening us. There wanted

Independent Voices
An Open Access Collection of an Alternative Press

FEATURED IN THIS COLLECTION

Sojourner November 1989

Independent Voices is a work in progress. This collection currently contains 15,401 issues comprising 465,191 pages.

ABOUT THIS COLLECTION

Independent Voices is an open access digital collection of alternative press newspapers, magazines and journals, drawn from the special collections of participating libraries. These periodicals were produced by feminists, dissident GIs, campus radicals, Native Americans, anti-war activists, Black Power advocates, Hispanics, LGBT activists, the extreme right-wing press and alternative literary magazines during the latter half of the 20th century.

Independent Voices is made possible by the funding support received from libraries and donors across the U.S., Canada and the U.K. Through their funding, these libraries and donors are demonstrating their commitment to open access digital collections.

Content for the Independent Voices collection was selected through recommendations by scholars, librarians, publishers, and selected bibliographies. The copyrighted periodicals that are included in the Independent Voices collection are being made available by the explicit permission of the copyright holder, assignee, or transferee; which were obtained in writing by Reveal Digital. See Legal Notices for additional information regarding copyright.
Five key lessons learned

1. Libraries will enthusiastically provide funding to support collaborative open access

Application – Diversity & Dissent Digitization Fund

DIVERSITY AND DISSENT DIGITIZATION FUND: CIVIL SOCIETY IN 20TH CENTURY AMERICA

$4,404,000 Funding Goal

Funded: $1,436,480
Percentage Pledged/Funded: 32%
Number of Backers: 33
Funding End Date: December 31, 2021

• Focus on 20\textsuperscript{th} century voices of dissent
• Provide leadership with transparency
• Formalize active collaboration
• Establish predictable budgeting and cashflow
GROWTH OF THE DIVERSITY & DISSENT FUND

- Fixed Costs
- Available for Digitization
NUMBER OF FUNDING LIBRARIES
CUMULATIVE FUND VALUE, 2018-2022

- Digitization: $2,015,255
- Salaries: $1,745,695
- Hosting: $255,556
- Marketing/Sales: $230,556
- Consulting: $45,000
- T&E: $66,000
- Administration: $275,556

Fund Value: $4,633,618
Fund allocation IF using a commercial publishing model

Amount allocated to corporate profit under typical commercial model!
No More Restricted Access
Update

• Seeking new home with a non-profit
• Library-driven governance will continue
• Announcement coming soon
• The future is bright!

Leveraging OA publishing infrastructure: JSTOR's Open Access initiatives

Deirdre Ryan
Director of JSTOR Forum & Primary Sources
JSTOR is working to make more of our resources openly available while...
Ensuring that we can financially sustain the enterprise that delivers value for our 11,000 participating institutions, 1,000 publishing partners, and the millions of users who depend on us for their research and teaching.
We have invested in the infrastructure and publishing processes to enable our publishers to offer open content, and helped to subsidize that effort.
Here is what you’ll find on
https://www.jstor.org/open/
OPEN Journals & Books

• 377 journals freely accessible worldwide

• 2,400+ journals freely accessible in 65+ emerging nations

• 1,900 journals with free read-only access worldwide

• Journal Hosting Program supports OA Journals

• 3,956 books freely accessible worldwide
JSTOR’s fully open online magazine “where the news meets its scholarly match”

• 2,000+ JSTOR Daily articles

• 4,000+ links to research articles on JSTOR, all openly accessible
At JSTOR Labs, we partner with publishers, libraries and labs to create tools for researchers, teachers and students that are immediately useful – and a little bit magical.
NEXT UP...PRIMARY SOURCES

Building on the sustainable infrastructure of ITHAKA as an organization and JSTOR as a platform, we are working to enable libraries to make their special collections openly accessible on JSTOR.

Privatizing the Public Domain and the Public Record: Some Alternatives

Bernard Reilly
President, Center for Research Libraries
Enhance your understanding of regional life and culture in Victorian-era Britain with a trove of local newspaper coverage and firsthand accounts.

British Library Newspapers: Part I, 1800-1900 is part of the British Library Newspapers series, providing researchers with the most comprehensive collection of national and regional newspapers of Victorian Britain and Wales. This full-text, fully searchable digital archive includes 47 papers originating in England, Scotland, and Ireland, carefully selected by an editorial board from the British Library and providing a broad yet detailed view of nineteenth-century Britain and the world. The collection is made up of daily and weekly publications and reflects Britain's growing role as a dominant power in the nineteenth-century world.

Invaluable in scope, newspapers in British Library Newspapers: Part I, 1800-1900 range from early tabloids like the Illustrated Police News to daily local papers like the Cheltenham Northern Star. Other notable papers of Part I include the Morning Chronicle, with famous contributors such as Henry Mayhew and John Stewart Mill, the Dickensian, publishing both illustrations and news as well as illustrated fiction, and the Economist, the radical reformist and leading intellectual journal.

Featured Testimonial:
"The most significant impact has been upon my students. I used to shy away from encouraging research and dissertation topics that involved extensive use of the press, knowing from experience that results were too haphazard and unpredictable for all but the most determined. But this situation has now changed. I can now lend opportunities for a revival in reception studies and work on public reputations. One undergraduate last term, for example, tracked the early weeks of the newspaper reception of Darwin's Origin of Species; the final dissertation had been accomplished for half a century. I used to spend much of my time showing students how to find things, now there is no more time for them to do it..."

- Prof. James R. Scudder, History and Philosophy of Science, University of Cambridge

Prices and Wages by Decade: 2010-

Links to U.S. government documents listing retail prices for typical consumer purchases, and wages for common occupations. All data is for the United States unless specifically indicated.

**Wages, 2010-**

- Current federal minimum wage
- Minimum wage laws in each state, current
- Minimum wage by state for tipped employees, current
- Minimum wage by state, 1999-2016
  Show the minimum wage rates set by state laws, as well as the federal minimum wage rate. Source: U.S. Department of Labor, Wage and Hour Division.
- Earnings by occupation for all jobs
  The U.S. Department of Labor's Occupational Outlook Handbook shows median earnings for each job title. Choose one, then click on "Pay" for further detail.
- Wage Data by Area and Occupation
  U.S. Bureau of Labor Statistics (BLS) shows wage data for over 800 occupations and 400 industries. This site has both national data and breakout for states and smaller geographies.
- National Compensation Survey - Wages
  Reports on Metropolitan Statistical Areas. Years covered vary by area, but most have reports for 2009 and 2010, with some having earlier years.
- Earnings - Current Population Survey
  This source lists earnings broken out by sex, race, ethnicity, educational attainment, etc.
- Agriculture - Farm labor wages, 1990-present
  The periodical Farm Labor has been in publication for nearly 90 years. It was originally published monthly, and then became a quarterly. Wages expressed in dollars can be found in every issue, it seems. After clicking on the link above, scroll down the section titled "Previous Releases." The HathiTrust digital library has these issues as well.

**Prices, 2010-**

  Food and fuel prices provided in Tables 730-733.
- New home sale prices - 1983-2011
  For those who want a simple figure which does not take into account number of rooms, square footage or home location, this U.S. Census Bureau chart shows the average and median selling price of only NEW homes (not older homes), reported monthly back to January 1983.
- Price of gasoline, 1983-2017
  Shows gasoline retail price data by state, region, or for the whole U.S. Source: U.S. Energy Information Administration.
- Price of gasoline, 1949-2014
  "Nominal price" was the price paid at the time of the transaction. This table shows the nominal price of leaded regular gasoline from 1948-1990, and unleaded regular gas from 1976-2011. Source: U.S. Energy Information Administration.
- Cost to mail a letter, 1983-present
  Chart shows postal rates for mailing a domestic letter. Source: the Historian of the U.S. Postal Service.
- Average Retail Food and Energy Prices, U.S. and Midwest region, 1980-2018
  To view data back to 1980, click the "Historical Data" icon next to each item, then use drop-down boxes near the top of the page to set start and end years. This source covers food and fuel prices for gasoline, electricity, etc. See similar data for the U.S. Northeast region, South region and West regions.
Overview of BLS Wage Data by Area and Occupation

BLS wage data are available by occupation for the nation, regions, states, and many metropolitan and nonmetropolitan areas.

National Wage Data
- For over 800 occupations, Data are classified using the Standard Occupational Classification (SOC) System.
- Data by job characteristics and the level of difficulty and complexity of work.
- For about 400 industries, Occupational wage data for sector, 3-, 4-, and 5-digit North American Industry Classification System (NAICS) industries.
- Data by occupation and gender Data for men and for women in 200 occupations.

Wage Data by State
- By state, 50 states plus District of Columbia, Guam, Puerto Rico, and Virgin Islands.
- Data by job characteristics and the level of difficulty and complexity of work. (Guam, Puerto Rico, and Virgin Islands excluded).

Wage Data by Metropolitan Area
- For 375 metropolitan statistical areas (MSAs), 34 metropolitan divisions, and over 170 nonmetropolitan areas. (MSAs consist of one or more counties (or towns and cities in New England) and contain a core area with a substantial population that has a high degree of economic and social integration with the surrounding areas; also, an MSA must have at least one urbanized area of 50,000 or more inhabitants. Certain MSAs have subdivisions called metropolitan divisions.
- Data by job characteristics and the level of difficulty and complexity of work. (Guam, Puerto Rico, and Virgin Islands excluded).

BLS wage data by area and occupation are from the National Compensation Survey, Occupational Employment Statistics Survey, or the Current Population Survey.

Other BLS programs that publish wage data (though not by detailed occupation) are Employment Cost Trends, Current Employment Statistics, and Quarterly Census of Employment and Wages.
